

Support when you need it

A new innovative clinical consultation service designed by Care UK, an independent provider of NHS services in the UK.

We work in partnership with GPs across the country to improve access for patients and reduce the ever-increasing demand on GP partners and practices.

Call us on **0333 4343 121** or visit www.practice-assist.co.uk

How can Practice Assist support you?

Your waiting times for face to face appointments reduced from weeks to hours

Remote support provided to your practice during busy periods, such as winter pressures

Your patients' concerns are resolved over the phone and to the highest of standards

Full read and write access to your patient records, including electronic prescriptions sent directly to your patient's local pharmacy

Quality assurance guaranteed, fully CQC registered, including a regular audit schedule

Trained and experienced GPs supported by our robust quality framework

Clinical effectiveness and administrative efficiency through our dedicated centralised hub offering your practice additional capacity and extended opening hours
